

Technical data corrugates hoses

Metal protection meshwork

Spiral-wound metal hose, hooked profile, cross section round, bore edges

IP 40 according to DIN 60529
Flexible with low abrasion
Temperature-resistant up to 300°C

PA / Polyamide hose

corrugated plastic tubing on the outside, PA 12-B with a broad bore
IP 68 according to EN 60529

PA 6 temperature-resistant – 50°C to +115°C
PA 12 temperature-resistant – 40°C to +100°C

Metal hose

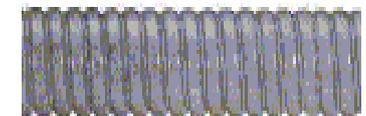

Spiral-wound metal hose, hooked profile, cross section round, bore edges

IP 40 according to DIN 60529
Temperature-resistant up to 220°C

Metal - hose with protective sheath

Spiral-wound metal hose, hooked bore, cross section round, angular bore
IP 40 according to DIN 60529
Temperature stability is dependent on the outer sheath

Jacket in PU / PA / PVC and silicone available

This presentation is a selection from our product range of hoses. We can also offer you other types with relevant requirements on request
